

Technical Introduction

**HOW YOUR TOWN AND WHIP CITY FIBER
WORKED TOGETHER TO BRING HIGH SPEED INTERNET TO
WESTERN MASSACHUSETTS**

Massachusetts Broadband Initiative

High Level View of The Network

What's on Your House?

What's in Your House?

INSIDE THE HOME

What else is in Your House?

SmartRG Router with Dual Wall Plate

SmartRG Router with Ooma

Troubleshooting Problems

No Internet

whip city fiber

Troubleshooting Smart/RG

On top of the router, check what lights are on

What it should look like: Power, WAN, Internet, 2.4GHz, and 5GHz should be on.

IF 2.4GHZ AND 5GHZ ARE NOT LIT

- Locate the WiFi button to the left of the router
- Press down the WiFi button
- Wait for the 2.4GHz and 5GHz to light up

IF WAN AND/OR INTERNET ARE NOT LIT UP

Make sure the Ethernet cable (CAT6) coming from the wall is plugged in the WAN port
